Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 13 and 14 are rejected under 35 U.S.C. 102(b) as being anticipated by Yazawa et al. (5,622,282).

3. Yazawa et al. '282 teach a rigid container for storing and dispensing a gas, comprising a first compartment with a gas outlet (22), a second compartment with a gas inlet (5), and a gas impermeable bag (10) separating the compartments, wherein the bag is movable to vary the relative volumes of the compartments (see figures, col. 4, lines 23-60). The container is capable of dispensing and receiving any source of gas.

4. Claims 13 and 14 are rejected under 35 U.S.C. 102(b) as being anticipated by the European patent publication (EP 1041337 A2).

5. EP '104 teaches a rigid tank (2) divided into two compartments (6,7) by a movable, flexible membrane (5, 15). The first compartment (6) has an outlet (3) and the second compartment has an inlet (4) for recovering gas discharged from the outlet (see figures). The container is capable of dispensing and receiving any source of gas.

Allowable Subject Matter

6. Claims 1-12 and 15-18 are allowed.

7. The following is an examiner's statement of reasons for allowance: The prior art of record fails to disclose or suggest a motivation for using the container to supply gas to a process wherein gas is recovered from the process and fed to the second compartment to displace volume in the first compartment.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The additional references listed on the attached PTO-892 form disclose variable volume compartmentalized containers.
